Mobile Device Mounts

**A-Tach** solutions consist of two separated parts that are brought together to create a secure mounting solution. The first part is the vehicle mount and the second part is the device holder. The vehicle mount is not designed to be attached and taken off the vehicle repeatedly or on a regular basis. Once it is attached, it should remain attached until you would like to permanently remove it.

**Attention:** Read all instructions and review the images before attaching this product.

**WARNING:** Please hold the vehicle mount and device holder over the place where the solution attaches to the dash **BEFORE** attaching the device holder to the vehicle mount to ensure a proper fit with the location of the solution. **Once screwed together the products are non-refundable.**

**Remember:** Instructions are provided for your convenience. You are responsible to determine if you have the skill to attach the solution to your vehicle.

(1) Clean the area where the mount will attach. Remove the covering from the tape. Insert the thin top edge of the mount into the seam right behind the top of the frame around the vent. The seam is tight but the mount will insert. Use the seam tool to open the seam if needed.

(2) Press the bottom notched edge of the mount upward and place the notch over the bottom of the vent frame. The tape will not leave any residue if the mount is removed in the future.

(3) The mount will attach over both vents. Shown is the mount attached onto a BMW X7 model.

(4) The mount attached.

## Warranty and Returns

### **A-Tach Mounts Limited Warranty**

A-Tach warrants the product to be free of all defects in materials and workmanship for a period of six (6) months from the date of purchase. This warranty extends to the original buyer.
