

A-Tach # 50103

Designed for: Chevrolet Camaro 2016 - 2024
Fits above entire center display for better positioning.

ST-2

A-Tach

Mobile Device Mounts

NOTICE: The product has been tested to fit securely to the listed vehicles. Instructions are provided for your convenience. You are responsible for the use of the product and to determine if you have the skill to attach the product without causing damage to your vehicle or the product. A-Tach Mounts will not be responsible for any damage to the vehicle due to the installation and/or use of the product.

Read all instructions and view the photos before attaching this product.

Once the mount and holder are screwed together, the items are considered used and non-refundable.

For best results, attach the mount or hold the mount over the place where the mount attaches to the dash **BEFORE** attaching the device holder to the vehicle mount to ensure a proper fit with the location. Most often the mount will appear to be a little too big or small for the intended location. Once attached, the mount should remain attached until you would like to permanently remove it.

WARNING: AVOID extreme heat conditions. It can damage the device and the mount.

Online instruction can be found on the product page – Or at link:

(1) Insert one seam tool between the top of the display frame and the plastic panel under the padded dash top. See arrow in photo for location.

You will need to insert the seam tool far enough to create a gap for the mount to insert into.

Use both seam tools if needed to open the gap far enough to insert the lower edge of the mount all the way into the gap.

Remember to clean the area where the mount will attach.

(2) Remove the covering from the tape.

Press the bottom edge of the mount all the way into the lower gap/seam until the mount hits the display top.

The mount with tape should be able to slide into the seam.

When the mount is all the way into the opening, remove the seam tools.

See additional instructions on the back side.

(3) Insert the seam tool between the two dash top panels. See arrow in photo.

This is a very tight seam and it might be easiest to start at the left corner and gently slide the seam tool to the right a little.

Use both seam tools if needed.

(4) With the lower edge of the mount in the seam, flex the top front edge of the mount forward and hook the angled edge into the front seam next to the seam tools.

It will be best to use two hands to attach the mount.

Warranty and Returns

A-Tach Mounts Limited Warranty

A-Tach warrants the product to be free of all defects in materials and workmanship for a period of six (6) months from the date of purchase. This warranty extends to the original buyer.

Within the period of this warranty, A-Tach has the option to repair or replace the item or refund the purchase price. Any replacement parts will be done on an exchange basis. All repairs and service must be done by A-Tach. Product must be delivered to A-Tach during the warranty time along with proof of purchase price and date. The shipping and packaging costs will be the buyer's responsibility. Labor costs and parts to repair will be A-Tach Mounts responsibility.

Damaged products caused by anything outside of shipping damage are not covered by this warranty. A-Tach will not be responsible for any property damage due to the use of the product. Any above exclusion may not apply in states that do not allow the exclusion or limitation. This warranty gives you specific legal rights. You also may have other rights which vary from state to state.

Returns

Before any product may be returned, A-Tach's must give prior approval. An RMA# (Return Merchandise Authorization Number) needs to be given to the buyer to return a product. All returns must be within (30) days of the invoice date and include proof of purchase. Any returned product must be undamaged and in like new condition. Returned product must be scratch free with no additional holes or screw marks on the product.

A-Tach reserves the right to withhold any refund if the product is believed to be damaged. A return must include a copy of the original order or invoice. All parts and components that were shipped with the original product must be included with the returned.
