

A-Tach # 50480

ST-1

A-Tach

Mounts

Designed for: Ford Bronco Sport 2021 - 2024

NOTICE: The product has been tested to fit securely to the listed vehicles. Instructions are provided for your convenience. You are responsible for the use of the product and to determine if you have the skill to attach the product without causing damage to your vehicle or the product. A-Tach Mounts will not be responsible for any damage to the vehicle due to the installation and/or use of the product.

Read all instructions and view the photos before attaching this product.

BEFORE attaching the device holder to the vehicle mount, hold the vehicle mount over the place where the mount attaches to the dash to ensure a proper fit with the location. Most often the mount will appear to be a little too big or small for the intended location. The mount is designed this way to stay securely attached onto the dash. The mount must be installed **BEFORE** a device holder is screwed onto the vehicle mount.

Once screwed together the products are considered used and non-refundable.

The vehicle mount is not designed to be attached and taken off the vehicle repeatedly or on a regular basis. Once it is attached, it should remain attached until you would like to permanently remove it.

WARNING: AVOID extreme heat conditions. It can damage the device and the mount.

(1) Clean the area where the mount will attach. The front edge of the mount will attach into the seam between the hard and soft top dash panels illustrated with the arrow in the photo.

(2) The lower edge of the mount will attach into between the top vent frame and top of the swiveling vent louver housing illustrated with the arrow in the photo. (Not in the top of the turning vent.)

(3) Use the seam tool if needed to open the front seam a little. It is a tight seam.

(4) Align the mount with the top of the vent.

See additional instructions on the back side.

(5) Remove the covering from the tape. Lift the mount vertically and insert the thin front edge of the mount into the seam next to the seam tool. The rubber dash should allow the panel to settle back into place in a little time.

(6) Rotate the mount down and pull the lower edge towards you and hook the lower edge of the mount into the opening illustrated in photo 2. The tape will not leave any residue if the mount is removed in the future.

Warranty and Returns

A-Tach Mounts Limited Warranty

A-Tach warrants the product to be free of all defects in materials and workmanship for a period of six (6) months from the date of purchase. This warranty extends to the original buyer. Damaged products caused by anything outside of shipping damage are not covered by this warranty.

Within the period of this warranty, A-Tach has the option to repair or replace the item or refund the purchase price. Any replacement parts will be done on an exchange basis. All repairs and service must be done by A-Tach. Product must be delivered to A-Tach during the warranty time along with proof of purchase price and date. The shipping and packaging costs will be the buyer's responsibility. Labor costs and parts to repair will be A-Tach Mounts responsibility.

A-Tach Mounts will not be responsible for any damage to the vehicle or product due to the installation and/or use of the product. A-Tach is not responsible for damages caused by extreme heat conditions. Any above exclusion may not apply in states that do not allow the exclusion or limitation. This warranty gives you specific legal rights. You also may have other rights which vary from state to state.

Returns

Before any product may be returned, A-Tach must give prior approval. An RMA# (Return Merchandise Authorization Number) needs to be given to the buyer to return a product. All returns must be within (30) days of the invoice date and include proof of purchase. Any returned product must be undamaged and in like new condition. Returned product must be scratch free with no additional holes or screw marks on the product.

A-Tach reserves the right to withhold any refund if the product is believed to be damaged. A return must include a copy of the original order or invoice. All parts and components that were shipped with the original product must be included with the returned product.
