**ST-1**

**A-Tach**
***Mounts***

**NOTICE:** The product has been tested to fit securely to the listed vehicles. Instructions are provided for your convenience. You are responsible for the use of the product and to determine if you have the skill to attach the product without causing damage to your vehicle or the product. A-Tach Mounts will not be responsible for any damage to the vehicle due to the installation and/or use of the product.

Read all instructions and view the photos before attaching this product.

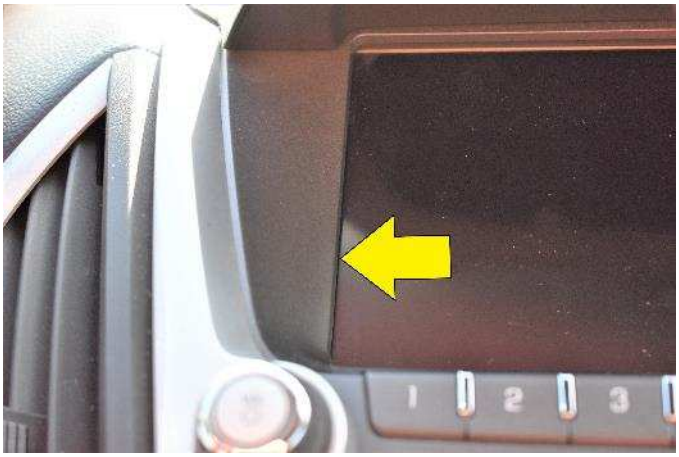
**BEFORE** attaching the device holder to the vehicle mount, hold the vehicle mount over the place where the mount attaches to the dash to ensure a proper fit with the location. Most often the mount will appear to be a little too big or small for the intended location. The mount is designed this way to stay securely attached onto the dash. The mount must be installed **BEFORE** a device holder is screwed onto the vehicle mount.

**Once screwed together the products are considered used and non-refundable.**

The vehicle mount is not designed to be attached and taken off the vehicle repeatedly or on a regular basis. Once it is attached, it should remain attached until you would like to permanently remove it.

**WARNING: AVOID extreme heat conditions. It can damage the device and the mount.**

(1) Clean the area where the mount will attach. The left edge of the mount will attach into the seam between the clear panel in front of the speedometer and the frame around it see the arrow in the photo.



(2) The right edge of the mount will attach into the seam between the display and left frame around the display illustrated with the arrow in the photo above.

(3) Remove the covering from the tape. Use the seam tool if needed to open the left seam a little. Press the left edge of the mount into the seam.

(4) Flex the right edge of the mount to the right and forward to insert the thin mount edge into the seam illustrated above.

**See additional instructions on the back side.**

(5) Press the edges of the mount all the way into the seams.

(6) The mount attached. The tape will not leave any residue if the mount is removed in the future.
